

Important TRICARE update

Beginning Aug. 1, 2006, TRICARE Global Remote Overseas beneficiaries who do not coordinate with International SOS before receiving routine or specialty care will be faced with significant out-of-pocket costs, including:

- **Enrolled family members face penalties of 50 percent of the cost of covered care and a \$300 or \$600 deductible (*depending on family status*)**
- **Active-duty members may have claims rejected in full**

All care not received at your organization's health unit must be coordinated with International SOS, including referrals from health unit providers to local host-nation providers for specialty care.

You do not need to call International SOS for care received at the health unit.

If you need to see a local host-nation provider, call International SOS first at:

0044-20-8762-8133
